

Installation and User Guide

fring version 3.24

For Windows Mobile

About fring

fring is a native mobile VoIP application that allows you to make mobile calls and send instant messages at no extra cost. fring calls **are free** ^[1], leveraging your WiFi and 3G handset mobile internet connection.

Hardware requirements

In order to use the Beta version, you will need:

- A Windows Mobile 5 or 6 handset and
- Internet WiFi, GPRS, EDGE or 3G data connection (Not a WAP connection) on your mobile handset.

Note: Currently it is not possible to make VoIP calls over 3G/GPRS networks.

Downloading fring

> To download fring from the web:

Open <http://www.fring.com> in your browser.
The following screen opens.

The screenshot shows the Fring website homepage. At the top left is the Fring logo with the tagline "It's fringing freedom!" and "BETA". A navigation menu includes "fring is | download | community | fun | blogs | support". The main content area features a central banner with the text "free mobile calls, live chat & presence over internet data plan or WiFi". To the left of this text is an image of a mobile phone displaying the Fring app interface. To the right is a green box with a yellow arrow pointing to it, containing the text "download fring to your mobile". Below this box is the text "go mobile with Skype®, MSN® Messenger, ICQ, Google Talk™, SIP, Twitter, AIM® & Yahoo!™". To the right of the main banner are two sections: "file transfer" with the text "Send and receive files with fring's new file transfer feature!" and "fringcubator" with the text "fresh from the oven: Get your fringME! widget now.". The footer contains the text "© 2005-2009 fringland Ltd. All rights reserved. fring, fringsters, fring a friend and the fring logo are trademarks of fringland Ltd. Other trademarks are the trademarks of their respective owners. This product uses the Skype™ API but is not endorsed or certified by Skype. Legal agreements were updated on 5/2/2009".

Click the **download fring to your mobile** link (in the green box).

A screen with the following form opens.

to join fring, fill in your details

Handset type: [visual list]

join >>

1. In the **Handset type** field, select the type of mobile handset that you have.
2. In the **Your country** field, select your country.
3. In the **Mobile number** field, type in the phone number of your handset.

Note: Enter your area code and phone number without any spaces. Type it carefully - your international number is your fring user-id.

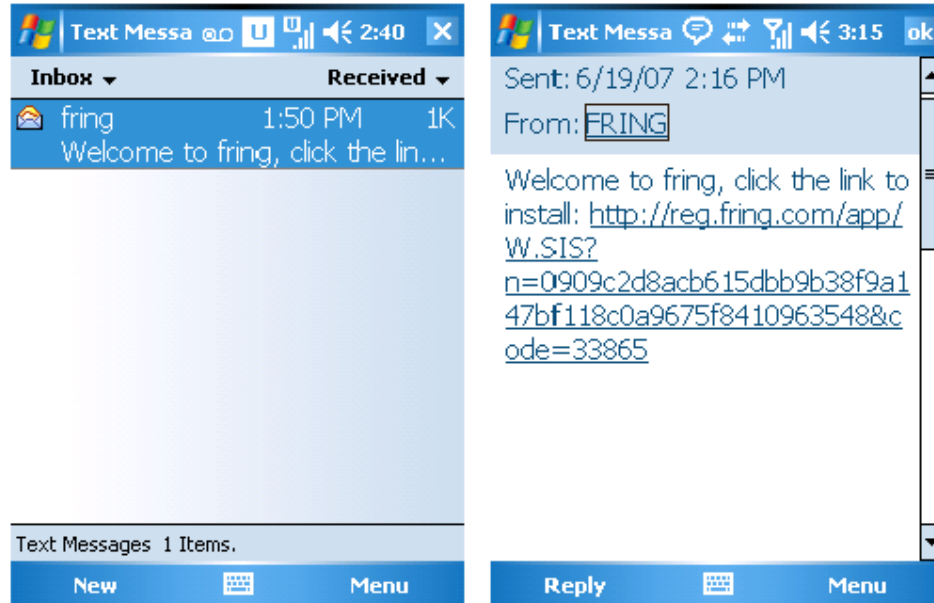

4. In the **Email address** field, type in your email address.
5. Click **join!**

The confirmation screen opens and an SMS is sent to your handset.

Once you have received the SMS, the installation and setup process continues on your handset.

On your handset: Open the Text message and click the download link.

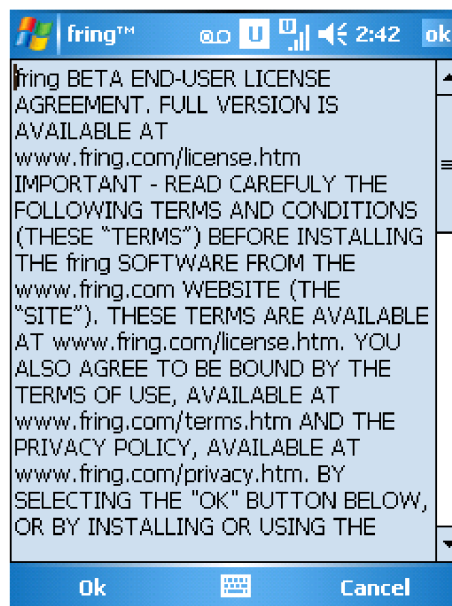

> **To download fring via an SMS invitation:**

Open the SMS message that you received and click on the installation link.

fring is downloaded to your device and the installation begins automatically.

Installing fring

Once fring has downloaded, the following screen appears:

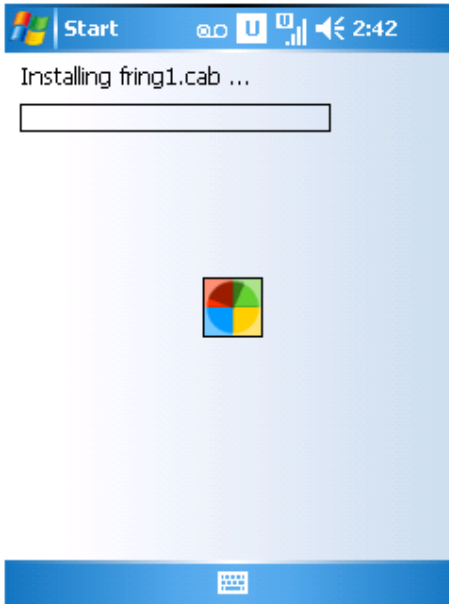

Before you can begin working with fring, read and accept the EULA.

> **To read and accept the EULA:**

1. Scroll through the EULA.
2. Once you have read the EULA and agreed to the terms, press **OK**.
3. The full EULA is available on our website at www.fring.com/license.htm

The installation process continues and the following screen appears:

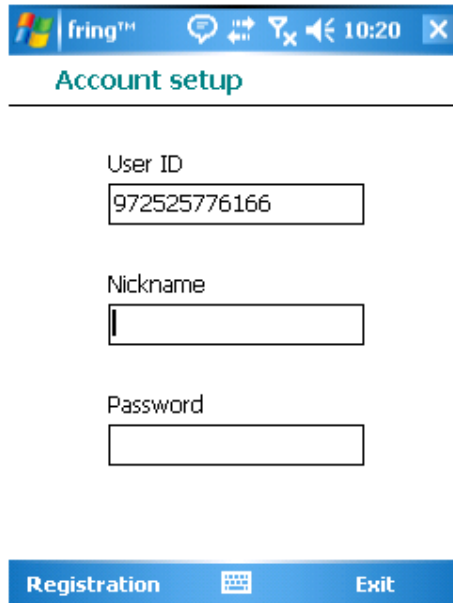

Once the installation is complete, you are ready to begin the registration process.

fring Registration

Before using fring you are asked to choose a nickname and a password. In addition, you are provided with the option to add additional VoIP services.

Choosing a nickname and password

The following screen opens and you are ready to begin the registration process.

fring™ 10:20

Account setup

User ID
972525776166

Nickname
|

Password
|

Registration Exit

The registration screen allows you to select your nickname and the password you will use to access your fring account. Your fring nickname will help your friends find you easily. A password is required to secure your account and to protect your fring contact list.

Note: The user-id used to identify your account is the **international phone number** of your handset. It cannot be changed. Your friends can search for you and contact you using this number.

If you have installed fring using the EXE (or cab) file, you should have an option to choose a unique User ID.

> To select your nickname:

1. Use the keys on your handset to type the nickname you want to use.
2. Use the down arrow on your handset to navigate to the next field.

> To select your password:

1. Use the keys on your handset to type the password you want to use.

Note: Passwords must be at least 4 characters.

2. Press **Registration** in the bottom left of the screen.

The next screen allows you to add your **MundiCalls** account details. Once you have chosen your fring nickname and password, provide the details of your **MundiCalls** account so that you can begin making and receiving VoIP calls.

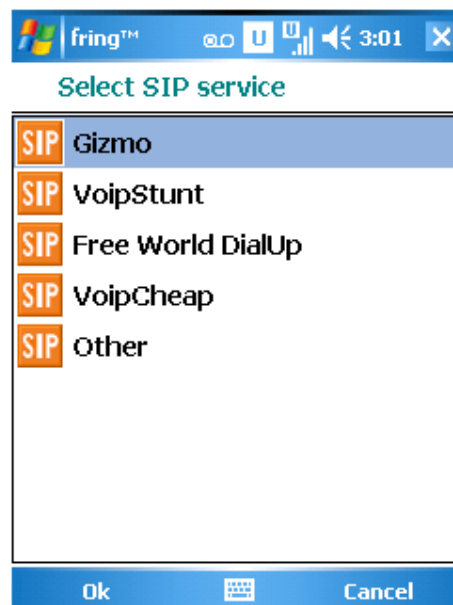

Note: If you do not already have a **MundiCalls** account, send an email to info@mundicalls.com and request for one.

Adding or Signing in to **MundiCalls** VoIP service.

1. From fring's main screen press **Menu** and choose **Configure Services**. The following screen opens.

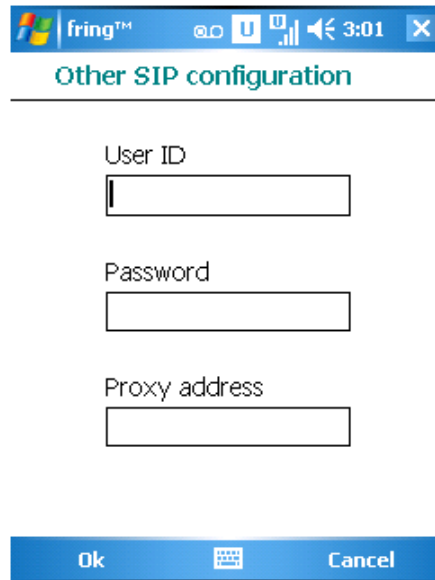

2. Choose **SIP** from the list The following screen appears:

3. Choose **MundiCalls** from the list. If **MundiCalls** is not listed, choose **Other**.

The following screen appears:

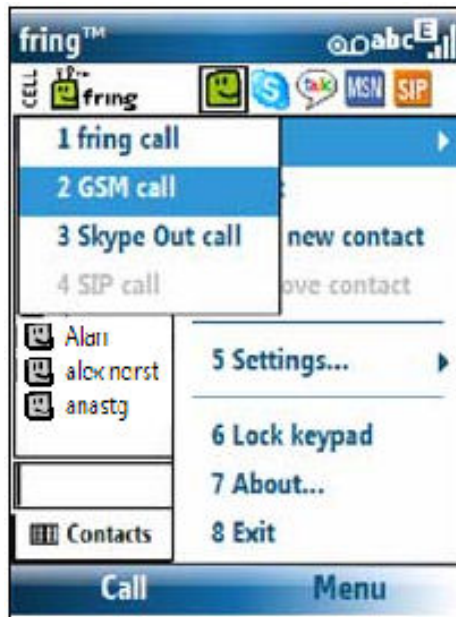

The screenshot shows a dialog box titled "Other SIP configuration" from the Fring application. The title bar includes the Fring logo, a window icon, a keyboard icon, a volume icon, and a clock showing 3:01. The dialog contains three text input fields labeled "User ID", "Password", and "Proxy address". At the bottom of the dialog are two buttons: "Ok" and "Cancel".

4. Enter your **MundiCalls User ID** (same as IP Phone number. i.e. 333xxxx) and **Password** assigned to you when you applied for **MundiCalls** service.
5. Enter the **SIP proxy**: sip99.mundicalls.com
Press **OK**.

You should be logged into **MundiCalls** and now be able to make outgoing calls using your **MundiTravel Mobility** service.

Making a SIP call

From the Call submenu, choose **SIP call**. Your call will be made using the **MundiCalls** account you have added. **Start making MundiTravel calls.**

Remember to dial 1 + Area Code + Phone number for calls to USA and Canada and 011 + Country Code + City Code + Phone number for all other international destinations.
